

# "Let's Talk" & "Let's Do" Cards

**Instructions:** Cut out these learning cards for quick, adult-led conversation and activity starters!

## Parent Tips

- **Know the goals of the show:** The learning goals for READY JET GO! are: scientific inquiry, space and earth science.
- **Keep cards nearby:** Print, cut and keep the cards where you can access them quickly and easily.
- **View with a purpose:** Be deliberate when inviting your child to watch a PBS KIDS show. These cards can help by adding meaningful conversation and easy activities to their experience.
- **Together is better:** Cards are designed for both individual or group work, with a grownup guiding the conversation.

### Let's Talk!

What did Jet and his friends explore today? What did you learn?

### Let's Do!

Explore space or Earth through a book, researching or outside in your neighborhood. Share something you learned with a friend or family member.

### Let's Talk!

Did Jet and his friends stay on Earth or go to space? What tools did they need to explore?

### Let's Do!

Scientists need tools to help them explore our Earth and space. Make a tool from recycled and household materials that you could use to explore your home or a nearby park—such as binoculars, magnifying glass, or a bag to carry discoveries.

### Let's Talk!

If you could travel to space with Jet, what would you do?

### Let's Do!

Using recycled material and craft supplies—such as cardboard, paper plates, tin foil, etc.—to make your own space saucer and join Jet in space!

### Let's Talk!

What do you see when you look at the night sky? What surprises you? What do you wonder about?

### Let's Do!

Make your own constellation light show! Grab a large sheet of dark paper. Cut tiny holes in the paper to create different patterns of "constellations." In a dark place, shine a flashlight through your paper to see stars appear!

### Let's Talk!

How did Sunspot and Jet's friends or family help? Why is working together so important?

### Let's Do!

Think of a task—like cleaning a room, making a card for a friend, or setting the table. Invite 1-2 other people to join you in the task. Working together can make the task easier and more fun. Remember to offer to help with their tasks, too!

### Let's Talk!

Jet always helps us discover the beauty of our Earth. What do you love about our "tiny blue dot"?

### Let's Do!

We can show gratitude for our Earth by taking care of it! Find a place to safely pick up trash, plant some flowers, save water, or create your own Earth-loving act.
